- Applied Sciences new campus

The new campus consists of three main buildings. The first is academic building which consist of 14,000sqm area over 7 main floors and 4 extra floors in the Clock Tower. The building accommodates the ASU headquarters, academic faculty, colleges and the deanship of research, graduate studies, admission & registration and student affairs, together with cafes. Lounges and the library.

The second building is the university administrative offices and services building. The third building is the training center.
