2.2 Welcome Message from the President

Dear Students,

It is a privilege, honour, and pleasure to be serving you as the second president of Applied Science University and to build on the vision and tireless efforts of Professor Waheeb Al Khaja, the Founding President of the University and Chairman of the Board of Trustees and Executive Director of the Board of Directors.

Applied Science University was established with a vision to be a distinguished academic institution promoting quality education to fulfil the needs of the market. Applied Science University has earned its license from the Ministry of Education according to the decree issued by the Minister's Council (No. WD 140/2004) dated 5th July 2004, making it one of the first private universities in the Kingdom of Bahrain. ASU has made considerable progress in its vision to become one of the leading universities in the Kingdom of Bahrain and the wider Gulf region. The University aims to support the economic and social development of the Kingdom of Bahrain by providing degree Programmes at both the undergraduate and postgraduate levels. Our Programmes are grounded in a pedagogical framework that aims to develop our students' understanding of key theories and concepts through knowledge acquisition and the development of practical skills and life-long learning skills while preparing our students for a range of career paths within their chosen field or discipline. The University aims to provide its students with a high-quality learning experience by ensuring an up-to-date curriculum for its Degree Programmes that meet the demands of private industry and the public sector alike - locally, regionally and internationally. ASU employs experienced and well-qualified academics who can support student learning and the overall student experience through the provision of research-informed teaching, supported by a comprehensive range of learning and assessment methods. This approach produces ASU graduates that are well-equipped and capable of facing on-going challenges in their professional careers.

3.1 University Campus

The University relocated to its purpose-built campus in September 2013, covering an area of 24,000 square meters. It is designed to accommodate around 2,100 students at the same time and to reach a capacity of 6,300 students distributed across mornings, evenings and weekends. The campus provides a suitable educational atmosphere in accordance with the highest international and local standards using the latest electronic technology in classrooms. Facilities include design studios, lecture halls, computer labs, language, and specialised laboratories, as well as a high-tech library and a 'state-of-the-art' lecture theatre with 320 seats. Also, a Wi-Fi connection is available across the campus. The University is currently in the process of building several sports facilities including tennis, handball, volleyball, basketball, and badminton courts. The building design meets international standards and supports the development of the Tubli Bay area of Bahrain. The design took into account a set of principles and considerations consistent with the Higher Education Council's decision in 2007 regarding the requirements for Higher Education buildings and facilities.

The University campus consists of three main buildings. The first building is the academic building, which consists of 14,000 square meters area over seven main floors and four extra floors in the Clock Tower. This building accommodates the ASU Headquarters, Academic Faculty, Colleges, the Deanship of Scientific Research and Graduate Studies and the Deanship of Student Affairs. On the ground floor close to the entrance hall, is the Directorate of Admissions and Registration, together with cafes, lounges, and the library. The library includes all the features required by the Higher Education Council, including study areas, group project rooms, computers to provide access to electronic library facilities, and enough shelves to house 23,000 books, journals, reference works and other printed materials. The second building is the University Administrative and services building. With a total area of 2200 square meters, this building includes Administrative Offices, areas for student activities, and a hall for exhibitions and seminars. The third building is the training centre, and it consists of two floors with a total area of 1266 square meters, 633 square meters per floor.

The location of the campus is an ideal geographical position, between Manama and Riffa in the Central Governorate, which is an area of high population and is easily accessible to students.

If a student misses more than 25% of the total course hours due to sickness or any compelling excuse approved by the Dean of the College, he/ she is considered as withdrawn from the course with a grade of W, and the rules of withdrawal apply. The Dean of the College informs the Directorate of Admissions and Registration about the decision, and a note of "Withdrawn" appears next to that course in the student's academic transcript. Students who represent the Kingdom or the University in social activities shall be permitted to be absent for no more than 30% of the total course hours.
