PRESIDENT'S NEWS DIGEST

The College of Engineering Orientation Day for the AY 2022-2023

After the successful conclusion of the university orientation day for the newly admitted students, the College of Engineering conducted the orientation for the engineering students.

Mr. Noel Lavin did an outstanding job in covering the requirements of the LSBU programmes to ASU/LSBU students in all six programmes of the Colleges of Engineering (4 Programmes), Administrative Sciences (1 Programme), and Law (1 Programme). The discussions covered registration details, attendance and participation, module study guides, UK marking vs. USA or Bahrain marking schemes, assessments, and progression to the next level requirements.

Dr. Marwan Aouad gave an overview of the College of Engineering and its programmes. He covered the high academic standards of the programmes and encouraged students to participate in events the college holds throughout the year including London Day, Engineering Day, Career Day, and Summer School in London.

We have completed the orientation by giving our admitted students the opportunity to visit our engineering labs and design studios accompanied by Mr. Yusuf Buzaboon, Mr. Yoonusraj Kodakkadan, Dr. Wael Abdelhameed, and Dr. Marwan. Great discussions with our students about the programmes and the practical components occurred during this visit.

A warm welcome to all our students from the college of engineering. We will provide you with the ultimate support to succeed in your studies and prepare you well for the job market.

Creating and Maintaining Student Engagement in and outside the Curricula Workshop

On Thursday 22nd Sep 2022, the Academic Staff Development Unit (ASDU), organized a workshop titled "Creating and maintaining Student Engagement in and outside the curricula" delivered by LSBU, as part of our international partnership joint activities. The workshop was held from 10:00 to 11:00 on zoom.

The workshop covered many practices that stimulate students' engagement in face-to-face settings or virtual settings for an outstanding learning experience to bring students back into the fold with approaches that help spark class participation.

The Library and Information Services Directorate cooperated with the College of Engineering for a training workshop

The Library and Information Services Directorate cooperated with the College of Engineering and held an in-person training workshop for the students on how to use Library Resources, whether printed or electronic, through the Library Portal.

Dr. Fayza Zitouni from college of Engineering brought the students to the library and the director of the library Dr. Ammar Jalamneh, provided a brief overview of the library, its objectives, and how to get benefit from the printed and electronic resources. Also, what is related to the technical procedures of the library and how to search for the source of information.
