

Our Message

The Office of Career Development and Alumni Affairs aims to serve as a bridge between the university and its graduates. This is achieved through the continuous enhancement and development of the alumni database. Additionally, the office supervises the Alumni Club's board of directors and organizes events, activities, workshops, and seminars that enhance the skills and competencies of the university's graduates. Furthermore, the office strives to provide job and training opportunities for all graduates and students, and to build sustainable relationships with both private and public sector institutions for the benefit of our students and alumni.

Our Services

Overview of Career Development Service:

The office provides services to students and graduates that effectively contribute to their personal development and support them in enhancing their skills and competencies to enter the job market. Some of the key services include organizing workshops and lectures in collaboration with specialized institutions, as well as disseminating job and training opportunities and providing career guidance. The office aims to help students and graduates make informed decisions about their future career paths, develop their personal and professional aspects, and regularly organize career fairs.

Career Counseling Sessions:

The office emphasizes the importance of providing career guidance as a means to help individuals learn and better utilize their skills and knowledge for successful professional lives. This is achieved through individual and group counseling sessions, among other services.

Resume/CV Building:

Students and graduates have the opportunity to create their resumes/CVs using various applications that enable them to create professional resumes in both Arabic and English languages.

Announcement of Job and Training Opportunities:

The office strives to provide job and training opportunities from various private and public sector organizations.

To benefit from these services, please contact us
